ACADEMY

Upskilling adult educators on key emerging digital technologies

www.alldigitalacademy.eu

PROJECT

With rapidly evolving digital technologies becoming an integral part of economic, social and daily life in Europe, digital competencies should be one of the core skills for all educators and training staff today.

ALL DIGITAL ACADEMY (ADA) aims to help adult educators and trainers to keep up with the digital transformation through training and capacity building activities on emerging digital technologies, with focus on Artificial Intelligence (AI) and Internet of Things (IoT).

OUTPUTS

■ **Online training**
Massive Open Online Courses (MOOCs) and Open Educational Resources (OERs) on AI and IoT

■ **DigComp-based resources**
Tools, methodologies, webinars and best practices

■ **Community of Practice (CoP)**
A hub for digital competence practitioners and stakeholders to connect and exchange practices

OBJECTIVES

■ **Upskilling adult educators** working in the field of digital inclusion, through the provision of high-quality online training on key emerging digital technologies and enhancing their knowledge on AI and IoT to create meaningful learning experiences for adults on these topics

■ **Strengthening the capacity of adult education organisations** to get ready in introducing training activities on emerging technologies in their educational offer and increasing their impact in digital transformation

■ **Promoting transnational cooperation and exchange** through the nurture of a Community of Practice as the main hub for digital competence stakeholders from all sectors to connect and share information

TARGET

■ Adult educators and trainers
■ Adult learning centres and VET organisations
■ AI and IoT experts with focus on education
■ Policy makers and regulatory bodies at national and EU levels
■ General public

ADA WILL OFFER

2 MOOCs on AI and IOT

50 OERs

to over 500 registered educators

Capacity building activities to over 100 organisations
